SEALER OF WEIGHTS AND MEASURES:

DAVID M. HODSDON.

FIRE DEPARTMENT:

RINALDO WILLIAMS		Chief Engineer
ROBERT SCOTT, Jr., }		Assistant Engineers
JOHN H. McKENNA, }		

REPORT OF THE SELECTMEN.

FELLOW CITIZENS OF HYDE PARK:

Your Board of Selectmen has the honor to present herewith the twenty-first annual report of the receipts and expenditures of the town by the various Officials to whom you intrusted official duties for the year ending January 31, 1889.

The various appropriations committed to the care of this Board have been expended to the best of its ability and in such a manner as we trust will meet with your approval. Each member of the Board has given a large amount of time to a "personal" supervision of the expenditure of the funds entrusted to them, and feels confident that the town has had "value received" for the work performed in a much larger proportion than is usual in such cases where large sums of money have been appropriated and expended. "Men are mortal" and the best of them are liable to make mistakes.

Early in the year the Board was confronted with an organized opposition of citizens who styled themselves a "Committee of the whole," who with the assistance of their agents and attorneys threatened to injure the influence of the Board, but, thanks to a conservative and intelligent public, the Board was quite unanimously sustained in its recommendations and has been assisted and supported by the people in maintaining a judicious government.

POLICE.

This department has been under the supervision of Chief Beatey and six assistants, and from very many reports

which have reached your Board of Selectmen we feel that no mistake was made in increasing the force to its present number, and for the able and for the efficient manner in which they have discharged their duties we respectfully refer you to their detailed report.

ACTIONS AT LAW.

Several citizens have commenced suits against the town. These suits are brought by the attorneys of the "Committee of the whole," and the people must judge of their motives in attempting a raid upon the town treasury.

TOWN GRAVEL PIT.

At the town meeting held August 14, 1888, it was voted to authorize and instruct the Selectmen to sell the various lots of land numbered 4, 5, 6, 7, 8, 12 and 13 and known as the "Town Gravel Pit." In accordance with this vote the Board sold the same for \$1,837.78, a sum in excess of the original price paid for the land by the town.

NEW STREETS.

At a meeting held August 14, the town voted to accept twenty-four new streets as laid out by the Selectmen and voted to appropriate \$8308, to build the same. They have been built in the best manner possible for the money.

HIGHWAYS.

Milton avenue, from Highland to Summit street has been thoroughly re-gravelled and the gutters paved. Beacon street from Albion street to Metropolitan avenue, on account of the grade established in 1886, required a large amount of work, which has been performed. The extension of Dana avenue, which was partially built last year, has been completed in a workmanlike manner.

Hyde Park avenue has been thoroughly re-gravelled

from the Boston Line to Central Park avenue, and the gravel sidewalks cut down where needed.

Central Park avenue, from Glenwood avenue to Leach's lumber yard, has been thoroughly repaired and the grade has been raised from twelve to fifteen inches.

West River street, from Perkins avenue to Winslow street, needed to be raised to conform to the grade established in 1885 and 1886, which has been done at an expense of \$400.

Austin street, owing to the cut made in 1886, not being sufficient to take the surface water from Gordon avenue, it was deemed best to blast the ledge and lower it, which has been done, and it now takes all the water from Gordon avenue to Stony Brook.

West River street, from the Pond bridge to the Dedham Line, has in previous years been very much neglected. It has been raised in the centre and put in good repair.

BRIDGES.

The only bridge (being the one across Stony Brook, near Boston Line) that was not rebuilt or repaired last year, has been entirely rebuilt this year, making all of our bridges perfectly safe for travel. The balance of the Highway Appropriation has been expended in a general way wherever necessity required it.

CENTRAL PARK AVENUE.

By a vote of the town in the Spring accepting the report of the Committee appointed the year previous, the Selectmen have carried out that report to the letter, but found that in severe rain storms the culvert, as built, would not take the water quickly enough to prevent the street from being overflowed, and at the October town meeting asked for two thousand dollars more to finish the culvert and otherwise complete the street, which has been done in a workmanlike manner, and has proved a success.

PERMANENT IMPROVEMENT.

ALBION STREET. — A sidewalk has been concreted and edge-stones set from Beacon to Highland streets, requiring a part of the gutter to be paved at a total expense of \$912.72.

FAIRMOUNT AVENUE. — A sidewalk has been concreted and edge-stones set from Water to Highland street, also sidewalk concreted from the Bridge to Water street at an expense of \$1,105.77. The water from the springs near Pond street was some years since conducted in pipes to opposite the estate of the late Dr. Sumner, thence on the surface to the Bridge; this caused the town great expense every Winter, as the springs flowed all the time and, freezing, made ice, at times filling the gutter. It was decided to continue the pipe under ground to the bridge, thus saving the town some seventy-five dollars a year in keeping the gutters open.

WILLIAMS AVENUE. — A sidewalk has been concreted and edge-stones set from Water to Summit street; this required the gutter near the Fairmount School to be repaved. The water running from the springs in the hills was carried under ground in pipes to the line of the Fairmount School lot, thence on the surface down the hill, causing much trouble in Winter; and it was thought best to continue the pipe to near Loring street, thus saving quite a sum of money every Winter. Expense, \$2,225.56.

PERKINS AVENUE. — A sidewalk has been concreted and edge-stones set from West River street to Childs street, at an expense of \$900.45.

CHILDS STREET. — Edge-stones have been set from Mr. Pfaff's estate to Gordon avenue; and a sidewalk concreted from Mr. Pfaff's to Mr. Tourtellotte's estate, at an expense of \$1,169.90.

GORDON AVENUE. — Edge-stones have been set from

Mr. Johnson's estate to the culvert on Childs street, at an expense of \$385.

AUSTIN STREET has had 1,200 feet of edge-stones set at an expense of \$950, including regrading of the sidewalk.

A concrete crossing at the head of Business street has been laid for the convenience of people using the O. C. R.R.; also a concrete crossing from the West end of the bridge to the old "town hall lot," across Gordon avenue, at an expense of \$100.

BUSINESS STREET has been thoroughly rebuilt, the grade raised at some points twenty-four inches, a new culvert built at the corner of Barry street, and the water carried thence some three hundred feet in an 18-inch pipe to the old culvert. This street has also had edge-stones set, and a sidewalk concreted from Gordon avenue to Glenwood avenue, at a total expense of \$4,500.

ARLINGTON STREET has had edge-stones set and a sidewalk concreted from Providence street to Hyde Park avenue, at an expense of \$550.55.

HYDE PARK AVENUE has been concreted from Arlington to West street, the edge-stones having been set last year, and a concrete crossing has been laid across Hyde Park avenue, corner of Arlington street, at an expense of \$573.25.

WEST STREET. — Edge-stones have been set and a sidewalk concreted from Hyde Park avenue to Central avenue, the street being regraded to conform to the edge-stones. Total expense, \$1,269.23.

CENTRAL AVENUE has had edge-stones set and a sidewalk concreted from near West to Arlington street, at an expense of \$922.22; also from River street to Winthrop, at an expense of \$299.88. The edge-stones were set in 1886. Total, \$1,222.10.

RIVER STREET, from the corner of Central avenue to the

Whitcher estate, has had sidewalk concreted (edge-stones having been set here previously) at an expense of \$100.

CENTRAL PARK AVENUE has had edge-stones set, from West River street to Mr. Corson's stables, from West River street it has had edge-stones set and concrete sidewalk laid to Oak thence to Pine street, to the estate of Mr. Henry S. Bunton. Expense, \$1,307.77.

GREEN STREET. — The grade on this street was raised at the end next the O. C. R.R., and lowered at the junction of Central Park avenue so as to drain the water, also edge-stones set and concrete sidewalk laid; total expense, \$888.28.

There has been a concrete crossing laid on Fairmount avenue at the head of Davison street, at an expense of \$25; also a concrete crossing at the junction of East River street and Arlington street, and the street re-graded to carry off the surface water from Arlington street at an expense of \$200. Also a concrete crossing on Gordon avenue, at the head of Summer street, at an expense of \$25. Also a concrete crossing at the junction of Oak and Maple streets, at an expense of \$100.

EAST RIVER STREET.

From Arlington street to the approach of the bridge over the N. Y. & N. E. R. R. has been thoroughly constructed in accordance with the decree and plan of the County Commissioners issued in July, 1887, at an expense of \$3,500.

TELEPHONE AND TELEGRAPH COMPANIES.

Early in the season the American Telephone Company began the construction of the long distance line, and before the Board was aware of what was being done in our town, they had set very large poles in the concrete sidewalks. The Board immediately considered the matter, and passed

a vote ordering the poles on West River street, from Central Park avenue to the Old Colony railroad bridge, to be removed. This was finally accomplished, after a great deal of labor and argument. A location was then granted to the company.

We have caused the New England Telephone and Telegraph Company to remove quite a number of their poles from the streets, and have granted them a location. This work has only been accomplished after repeated conferences. Each company is to paint their poles and keep them in repair to the satisfaction of the Selectmen.

HOSE HOUSE.

A lot of land was bought at the corner of Metropolitan avenue and Thacher street, and a Hose House erected thereon, according to a vote of the town.

ENGINE HOUSE.

The Engine House has been thoroughly repaired and painted inside and out, at an expense of \$1,180.

LOCK-UP.

When the Board inspected the Lock-up in the Spring they were astonished at the miserable quarters provided for prisoners, and immediately considered the subject, voting to remodel it under the direction of our Chief of Police, which has been done in a thorough manner.

PLANK SIDEWALKS.

There have been laid this year about 6,500 feet of plank sidewalk four feet wide on West River street, Central Park, Central and Hyde Park avenues, at an expense (including the grading and preparing it for the plank) of \$1,980.

NEPONSET AVENUE.

This street has given to our predecessors much trouble on account of the surface water; there being no outlet, it forms a basin. After giving the subject due consideration it was voted to buy a parcel of land six feet wide and about two hundred feet long. The land was bought and at this point a stone culvert was built to receive the water, thence it was carried through a large box laid under ground to the point where a brook rises and runs thence into the river. This was accomplished at an expense of \$400.

ELECTRIC LIGHTS.

Agreeably to the vote of the town at the meeting held October 24, your Board of Selectmen have accepted the petition of the Hyde Park Electric Light Company to have the franchise and contract of the American Electric Manufacturing Company transferred to them, they have also accepted a bond for \$10,000, given by the Thomson-Houston Electric Company for the faithful performance of the conditions of the contract.

GRAVEL BANK.

At a meeting held August 14, the town voted to appropriate \$1,500, and authorized the Selectmen to make the purchase of a "Gravel Bank." At that time we had in view a parcel of land that was thought suitable for this purpose, but upon examination it was found to be more sand than gravel. The Board has not as yet made any purchase.

METROPOLITAN AVENUE.

We beg the pardon of our successors for suggesting the propriety of thoroughly repairing this street, from Beacon street to the Milton Line. This street has had but very little expended upon it since being built, at which time the money was used very economically, some \$700

of the appropriation being turned into the treasury. We desire also to call the attention of our successors to the necessity of laying out Westminster street its entire length, firmly believing that the town at its August meeting did the citizens of this locality an unintentional injury which ought to be righted by voting to accept this street, thereby removing all cause of complaint in regard to surface drainage, and at the same time do an act of justice to the citizens in that locality.

For a detailed statement of all the money expended by the Board we would respectfully refer you to the Treasurer's Report.

In conclusion we would state that the highways of the entire town are in a good condition with perhaps a few exceptions; and this excellent condition has only been secured by a large appropriation and a careful personal supervision of the work by each member of the Board. Certainly every citizen must acknowledge that never in years past has the town received so much value for the money expended as this year; and every effort has been made by us to manage the affairs of the town that we were responsible for in a manner that would meet the approbation of all good citizens.

All of which we most respectfully submit for your consideration.

M. P. MORRELL,

JAMES MCKAY,

H. M. CABLE,

Selectmen and Surveyors of Highways.

Hyde Park, Mass., Jan. 31, 1889.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1888	234
Males	113
Females	121

The parentage of the children is as follows:

Both parents American	103
Irish	28
Scotch	4
English	5
Swedes	2
Germans	2
of British Provinces	18
Mixed, one parent American	52
Both parents of other nationalities	20

Born in January, 30; February, 18; March, 15; April, 15; May, 22; June, 20; July, 22; August, 15; September, 22; October, 16; November, 14; December, 25.

MARRIAGES.

Number of intentions of marriage issued in 1888	82

Respectfully submitted,

HENRY B. TERRY, Town Clerk.

REPORT OF THE BOARD OF HEALTH.

During the past year the town of Hyde Park has been favored — perhaps more than any other suburban place — in the small number of cases of contagious diseases. With the exception of numerous cases of scarlet fever, mostly in a light form, and of a few cases of diphtheria and typhoid fever, as the following reports of physicians will show, there have been very few cases of diseases which according to law must be reported to the Board of Health in order that a record may be kept and supervision had.

For the year ending January 31, 1889, there have been reported to the Board the following cases of contagious diseases :

Diphtheria,	21 cases	with	1 death.
Scarlet Fever,	36 “	“	1 “
Typhoid Fever,	15 “	“	2 deaths.
Membraneous Croup,	1 case	“	0 “
Measles,	3 cases	“	0 “

Against

Diphtheria,	20 cases	with	3 deaths.
Scarlet Fever,	39 “	“	0 “
Typhoid Fever,	11 “	“	0 “
Membraneous Croup,	2 “	“	2 “
Measles,	5 “	“	0 “

for the year 1887.

The Board has, in compliance with the law, adopted the practice of placarding houses in which there is dangerous contagious disease.

The usual amount of incidental expense has been incurred during the year, increased somewhat by an ad-

ditional amount of printing which was necessitated by a compliance with laws passed during the session of the Legislature of 1888.

We believe that the keeping of swine in the thickly populated portions of the town should be still further restricted.

There have been many calls to remove swill. We have again tried the experiment of having it removed for its value by different parties, each being assigned a prescribed section, but it has been only partially successful. The best course would seem to be for the town to remove and sell the swill, covering the expense as far as possible from the proceeds of the sales.

We have been called upon to examine a large number of wet cellars. We believe all such should be cemented. There are a number of houses in town situated in places so low that the only practicable way to obtain uniformly dry cellars seems to be to raise cellars and houses. No ashes, garbage or dirt of any kind should be allowed to remain in any cellar during the summer months; and pure air should be allowed to circulate through the cellar at all seasons, in pleasant weather. Our experience teaches us that many cases of sickness might be avoided if the above suggestions were strictly complied with by owners and tenants of houses.

The Board has felt obliged to condemn the use for drinking purposes of the water from several wells situated in dangerous proximity to sources of filth, and in a locality where there had been an outbreak of typhoid fever. We advise the discontinuance of the use of well-water for drinking purposes in all thickly populated districts, and in all other places where there is possibility of filth contamination.

The Board, in this connection, wishes in the most earnest manner to urge upon the attention of the people

the necessity of an early and serious consideration of the question of a system of sewerage. They believe it to be of more importance than any other improvement that can be made, inasmuch as the health of the people of the town in a large measure depends upon it.

A large portion of our work during the year has been to secure the removal of nuisances on private premises by the responsible parties.

We have been called upon legally to interfere in but few cases for the removal of nuisances of wet or malarious lands. The principal cases where we have taken action were the estate corner of Green street and Central Park avenue, and the low lands between Central Park avenue, Factory street, Providence division of the O. C. R.R. and Mother Brook. The dangerous condition of the lands in these two instances was greatly reduced, if not entirely removed, by judicious filling under direction of the Board — in the latter estate, wholly at the expense of the land-owners, in the former, the owner paying three-fourths of the expense and the town the remainder.

The Board has avoided so far as possible interference with existing nuisances of the above nature, in consequence of difficulty in securing the prompt adjustment of expenses incurred.

The following regulations were adopted by the Board at the commencement of the year.

PUBLIC STATUTES, CHAPTER 80, SECTION 18— The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth and causes of sickness within its town. Whoever violates any such regulations shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provisions of law this Board makes the following regulations, which will be strictly enforced:

REGULATION 1. — No person will be permitted to keep any swine within the limits of the town of Hyde Park without a written permit from the Board of Health. Said permit may be revoked at any time

when said keeping of swine, shall, in the opinion of the Board of Health, be likely to be prejudicial to the public health.

REGULATION 2. — No person shall place, or cause to be placed, or by any means empty, or cause to be emptied, any sewage, the drainage of any sink or stable, or the contents of any cesspool or privy well, or any other noxious or filthy matter, in or upon any public street or way of this town.

REGULATION 3. — Water from the kitchen sink shall not be allowed to run under any house, nor shall any cesspool for the retention of such waste water be within five feet of any house unless the cesspool be cemented water-tight. All drains connecting water closets and sinks with cesspools shall be trapped and ventilated so as to prevent the passage of gases into the house. No house the cellar of which is habitually wet shall be used as a dwelling.

REGULATION 4. — Any well, spring, cistern, or other source of drinking water that is contaminated from any surface drainage, cesspool, privy, sink, spout, or other sort of water pollution, must be disused.

REGULATION 5. — No person shall remove, or carry in or through any of the streets, lanes, avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault, or privy well, swill or house offal, (either animal or vegetable) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said board may deem necessary.

REGULATION 6. — Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park until May 1, 1889. Such parties will be given certain districts, designated in their licenses, and they will be required to take all the swill and refuse matter from every house on such streets, if desired, and the occupants of such houses will be required to deliver the same to the parties licensed, and to no other persons.

REGULATION 7. — No person shall bury the contents of any cesspool, vault, privy or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

PUBLIC STATUTES, CHAPTER 80, SECTION 79. — When a physician knows that a person whom he is called to visit is infected with small-pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offence not less than fifty, or more than one hundred dollars.

PUBLIC STATUTES (1884), CHAPTER 98, SECTION 1. — When a householder knows that a person within his family is sick of small-pox, diphtheria, scarlet fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health of the town in which he dwells; and upon the death, re-

covery or removal of such person the room occupied and the clothes used by him shall be disinfected by such householder in a manner approved by the Board of Health. Any person neglecting or refusing to comply with either of the above provisions shall forfeit a sum not exceeding one hundred dollars.

REGULATION 8.—No child or adult person belonging to a household in which small-pox, diphtheria, scarlet fever, measles, or other contagious disease dangerous to the public health, exists, or whose residence has a common entrance with such household, shall be allowed to attend any public or private school until the expiration of two weeks after the death, recovery or removal of such sick person; and every such child or adult person shall be required to present to the teacher of the school a certificate from the attending physician, or a member of the Board of Health, stating that he is free from contagion and that the requirements of this regulation have been complied with.

REGULATION 9.—The following diseases are considered contagious and dangerous to the public health: Small-Pox, Diphtheria, Scarlet Fever, Measles, and Typhoid Fever.

PUBLIC STATUTES, CHAPTER 252.—In compliance with the requirements of the above chapter of the Public Statutes, the Board of Health makes the following regulations:—

REGULATION 10.—Any person in the Town of Hyde Park, who knows or suspects any domestic animal has contagious disease (such as glanders in horse or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment, which will strictly be enforced.

REGULATION 11.—All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing, to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

The Board of Health earnestly request that no swill or vegetable matter be deposited in vaults, as such disposition of it is a very fruitful source of disease.

The Board of Health intends, by personal supervision, to see that the above regulations are carried out, and desires the inhabitants of Hyde Park to assist in the work of frequently cleaning out their cess-pools and vaults, and removing all noxious matter from their premises.

In conclusion, the Board recommends the town to make a separate appropriation for the use of the Board of Health, to be drawn on its order. This would save much perplexity and annoyance to other town officers, and largely increase the efficiency and promptness of the Board's acts.

Respectfully submitted,

GEO. F. DOWNES, Chairman,

J. C. LINCOLN,

E. H. BAXTER, Secretary.

REPORT OF THE OVERSEERS OF POOR.

TO THE CITIZENS OF HYDE PARK:

In presenting this report, there seems only one thing new to be said, \$4,000 will be required to be appropriated for the year 1889, an increase of \$1,000 over last year's appropriation. Some person unknown to us left \$5.00 with Asa J. Adams for us to expend in Thanksgiving dinners, which was duly expended, with an addition of \$5.00 by this Board.

Overseers of Poor.

REPORT OF TRUSTEES OF THE PUBLIC LIBRARY.

During the past year, the circulation of the Library has been 33,423, showing an average increase of over 500 volumes per month, when compared with the circulation of last year. The character of the books used has not materially changed, the average being as follows: Fiction 8-10, History 1-10, Travel 1-20, and Miscellaneous 1-20. The number of magazines used in the Reading-Room has been 1,217; new cards have been issued to the number of 389; and fines have been collected to the amount of \$42.88. There have been 24 books and pamphlets added by gift, and 930 by purchase, making the entire number of volumes now belonging to the Library over 10,000.

In the purchase of books, the object has been two-fold, first to supply a suitable amount of current fiction, biography, and travel, and second to furnish such standard works as the more thoughtful and scholarly readers may reasonably require. To aid the trustees, especially in the latter particular, they have employed a competent expert to prepare a list of books which should be in the library of a town like ours. This list will be of material service in the future purchase of books. In this connection, the patrons of the Library are reminded that the Librarian has always on hand blanks on which they can request the purchase of any works which they think the Library should contain. A more frequent use of this privilege would increase the usefulness of the Library to both the special student and the general public.

The encyclopædias and more important reference books have been moved into the Reading-room and placed in front of the Librarian's desk so that readers can consult them without the trouble and delay of asking for them. It was urged against this plan that the books would be mutilated and rapidly destroyed. We are happy to find that such fears were not well founded. The books have been freely used but not abused.

The Trustees have had under consideration the subject of lighting the Library by electricity, but have thus far been deterred from so doing by the expense.

In conclusion, we desire again to call the attention of the citizens to the need of a library building. Such a building might well be adapted to the use of both the Library and the Historical Society. There is no doubt but that the united friends of the Public Library and the Historical Society could secure the erection of a building which would be suitable for their joint use and at the same time be an ornament to the town.

The books and pamphlets received by gift are as follows:—

18 Public Documents.

2 Volumes from Mr. F. S. Allen.

1 Volume from Mr. G. C. Hurter.

1 Volume from Mr. Henry S. Grew.

1 Pamphlet from Mr. T. J. Coolidge.

1 Pamphlet from Attleboro Library.

For the Trustees,

HENRY B. MINER, Chairman.

POLICE REPORT.

OFFICE OF THE CHIEF OF POLICE, }
HYDE PARK, Jan. 31, 1889. }

TO THE BOARD OF SELECTMEN :

GENTLEMEN, — I have the honor to submit a report of the Police Department for the year ending Jan. 31, 1889.

The police force as now constituted is as follows :

CHIEF, JOHN BEATEY.

DANIEL O'CONNELL,	DANIEL T. ADAMS,
ANDREW D. ROONEY,	BENJ. E. FOGG,
ALEXANDER SCHWAB,	CYRUS GORMAN.

SPECIAL OFFICERS WITHOUT PAY.

RICHARD J. SULLIVAN,	GEO. E. SHUTE,
JAMES A. CULLEN,	ORIN W. MANUEL,
DAVID A. McDONALD,	GEORGE JAMES,
FRANK L. BUNKER,	ANDREW SHERMAN,
OWEN McMAHON,	WILLIAM QUEALY,
JAMES A. BROWN,	TIMOTHY M. McNAMARA,
JOHN H. TUCKERMAN, Jr.	THOMAS MULCAHY,
FRANK GREENWOOD,	JEROME MATHEWSON,
JOHN C. McDOUGALD.	

CRIMES AND MISDEMEANORS.

Assault	29
Arrested for other officers . . , . .	5
Breaking	1

Total number of arrests							310

Minors arrested for different offences and discharged,	27
Search warrants for liquors	10
Doors found open	14
Number of persons arrested for drunkenness	182

Those claiming a residence in the town 87, of which 29 have a legal residence.

1,745 persons have been lodged in the station house over night.

A number of houses have been broken into for the purpose of larceny and property taken to the amount of about \$1,600, of which some \$500 has been recovered. The breaking and entering done in the Fairmount District was no doubt by professionals who were operating in this and the surrounding towns.

For better protection I recommend that the officers now on duty from 7 to 12 should remain on all night.

The telephone in the Police Office is of great value and I recommend that one be placed in the Readville District for police purposes.

POLICE STATION.

The alterations made at the lock-up this year were very much needed. Two rooms have been added, one of which is for the use of female prisoners or those asking a night's

lodging. Previous to this time no separate place had been provided for them. The other room is used by the janitor.

Having a larger number of tramps than any of the surrounding towns, and their care coming under the Overseers of the Poor I think they should provide a separate place for them as the lock-up is too small to accommodate the 2,000 persons we have had the past year.

In conclusion I would say that the duty as Chief of Police was entirely new business to me. In a few days after my appointment I visited all places having the name of selling liquor in violation of the law, and told them I intended to enforce the law impartially. This we have done. An officer having the power to enforce the law to preserve the peace should be careful not to abuse it. Moral persuasion is part of an officer's duty.

I think the work done by the police during the past year (with one exception) was creditable to the town and themselves, that exception being a special officer who was immediately discharged from duty.

I am, your obedient servant,

JOHN BEATEY, Chief of Police.

ENGINEERS' REPORT.

TO THE BOARD OF SELECTMEN :

GENTLEMEN, — In presenting our annual report for the year ending January 31, 1889, it is with great pleasure that we call your attention to the great amount of property in danger and so small proportion destroyed. It speaks well of the discipline of the department and of the character and efficiency of its members. Although we have been severely criticised at times by our fellow-citizens for some slight mistakes, yet we look back upon our year's record with pride, feeling that we have not only been a credit, but a great benefit to our town, and have merited the respect and hearty support of our fellow-citizens. At our annual town meeting one thousand dollars was appropriated for the much needed repairs on our Engine house. Although that amount proved insufficient, the work has been carried through and the house put in thorough repairs, and will need but little outlay for years to come. At the commencement of the year our faithful steward, Joshua Wilder, requested that, on account of the increasing duties, he might be relieved, and some one appointed to fill his place. The Board after much consideration, appointed Mr. Edward A. Hawley, who has faithfully and honorably discharged the responsible duties attending that office, to the entire satisfaction of the Board of Engineers. To our fire alarm system which we consider a valuable acquisition, has been added a tower striker, located in the tower of the Methodist Church, four street boxes located as follows: At Mattapan Mills, near American Tool and

Machine Co., at Hair Factory, and at Cotton Mill, and five house tappers at the houses of the firemen, which have been paid for by the men. About two miles of wire have been run with all necessary machinery to complete the same. A hose house has been built by vote of the town, located on the corner of Metropolitan avenue and Thacher street, near the Greenwood School-house, which will need to be equipped this year, to make it of service to the town, at a cost of \$1,300. We would again earnestly recommend to the town the purchase of a second-class steam fire engine; (in safety prepare for danger). We would recommend that the town, by vote, put all property belonging to the fire department and all money appropriated for its use into the hands of the Board of Engineers, they being the proper persons to control and expend the same.

The apparatus belonging to the town is as follows:—

2 Steam Fire Engines.

1 Chemical Engine.

1 Hook and Ladder Truck.

2 Hose Carriages.

1 Hose Wagon.

4 Sets of Swinging Harnesses.

1 Single Harness.

1 Lead Harness.

1 Sixty Feet Fire-escape Ladder with Gun.

1 Jumping Net.

2 Carrying Harnesses.

3000 feet Cotton Hose in Central House.

1000 feet Cotton Hose at Hose House in Readville.

300 feet of Cotton and Rubber Hose for Chemical.

3 Relief Valves.

2 Shut-off Nozzles, together with the requisite number of
Play Pipes, Wrenches, Bursting Straps, Hose Lines,
Lanterns, etc., etc.

Appended is a list of the officers, of the number of men in the department; also a list of alarms and fires of the year, with insurance and loss.

RINALDO WILLIAMS,

Chief Engineer.

ROBERT SCOTT, JR.,

JOHN H. McKENNA,

Assistant Engineers.

OFFICERS AND NUMBER OF MEN.

The following is a list of the officers of the several companies together with the number of men in the employ of the department.

HOSE Co. No. 1.

E. BULLARD, Foreman.
 W. F. DONLAN, Assistant Foreman.
 C. M. WANDLASS, Clerk and five men.

HOSE Co. No. 2.

FRED T. GREENLOW, Foreman.
 A. D. MARSTERS, Assistant Foreman.
 C. P. TAYLOR, and six men.

HOSE Co. No. 3.

JAMES H. O'BRIEN, Foreman.
 D. W. MAHONEY, Assistant Foreman.
 C. H. GALLIGAN, Clerk and two men.

CHEMICAL ENGINE Co. No. 1.

SCOTT WILLIAMS, Foreman.
 M. J. FOLEY, Clerk and three men.

HOOK AND LADDER Co. No. 1.

WILLIAM HOLTHAM, Foreman.
 F. A. HAWLEY, Assistant Foreman.
 W. R. McDOUGALD, Clerk and seven men.

There are ten substitutes who are paid by the several companies such compensation as they may direct.

M. J. FOLEY, Engineman.

EDWARD A. HAWLEY, Steward.

Number of men in the Department including engineers . . . 41

HYDE PARK, February 1, 1889.

AUDITORS' CERTIFICATE.

In compliance with the By-laws of the Town, the undersigned have examined the accounts of the Selectmen, School Committee, Collector of Taxes, Town Treasurer, Commissioners of Sinking Fund, Trustees of the Public Library, Overseers of the Poor, and Board of Health, and hereby certify that the same are correct, and all payments accompanied by proper vouchers.

WALLACE D. LOVELL,

ASA J. ADAMS,

JOHN H. RUSSELL,

Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1. — All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2. — No vote fixing the period for closing ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3. — When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4. — The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5. — No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting.

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

MEETINGS OF TOWN OFFICERS.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1. — The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2. — All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3. — On the first secular day of each month, the collector shall pay over to the town Treasurer all the taxes collected by him; and he shall on or before the first day of February in each year, make up his account and render the same to the Auditors.

DUTIES OF THE AUDITORS.

1. — The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2. — Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3. — Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4. — They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the Selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1. — No building shall be removed over a public street without the written permission of the Selectmen.

2. — The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the Selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3. — No person except the Selectmen or the Surveyors of Highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the Selectmen; and all persons acting under such permit, shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4. — No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5. — No person shall, without the written consent of the Selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow-balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6. — No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7. — No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8. — No person shall, without a written license from the Selectmen, place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the

travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise or any rubbish or obstruction whatever.

9. — No person shall carry, in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10. — Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11. — No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12. — Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13. — No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14. — No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15. — No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16. — No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17. — No person shall intermeddle with any hydrant, gate, gate box or water pipe placed or located within the limits of any public way in this town, without permission from the Selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1. — The town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2. — All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has been or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3. — Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4. — It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5. — It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6. — It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7. — Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town report, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable, after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The Selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority of them in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1. — It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2. — All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3. — In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4. — All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of

chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5. — Hearths of fire-places or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6. — No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7. — No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8. — No smoke-pipe in any such wooden or frame building shall hereafter enter any flue, unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a double collar or metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9. — The Board of Engineers shall examine into all shops and other places where shaving or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant, or occupant refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10. — It shall also be the duty of said Engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the Selectmen forthwith. And whenever in the opinion of a majority of the Board of Engineers, any chimney, hearth, oven, stove, stove-pipe, fire-frame or other fixture, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said Engineers, shall forthwith notify and direct the owner, tenant or occupant of the premises upon which the same are situated, to alter, repair, or remove the same, as the said Engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said Engineers shall cause the same to be removed, altered or repaired

at the expense of such owner, tenant or occupant. And any person who shall obstruct the Engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty herein-after stated.

11. — The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of the town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. Norfolk, S.S.

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. Norfolk, S.S.

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

True Copies. Attest:

ERASTUS WORTHINGTON, *Clerk.*

REPORT
OF THE
SCHOOL COMMITTEE
FOR
THE SCHOOL YEAR

ENDING JANUARY 31, 1888.

HYDE PARK:
RANDALL & LANGLEY, PRINTERS.
1889.

REPORT OF THE SCHOOL COMMITTEE.

TO THE CITIZENS OF HYDE PARK:

As the custodians of our public schools your school committee in accordance with the provisions of our statutes and a long established custom in our commonwealth submits to your consideration its annual report for the past year.

ORGANIZATION.

The Committee organized with James E. Cotter as Chairman and Richard M. Johnson as Secretary, the rules and regulations of the Board for the year just previous were adopted, and pursuant therewith the following sub-committees were appointed by the Chairman and approved by the Committee, viz. :

High School, Messrs. Vose, Davis and Washburn.

Grew School, Messrs. Davis and Cotter.

Fairmount School, Messrs. Washburn and Johnson.

Greenwood School, Messrs. Johnson and Chick.

Damon School, Messrs. Chick and Cotter.

Butler School, Mr. Cotter.

Industrial School, Messrs. Washburn and Vose.

Evening School, Messrs. Chick and Johnson.

These sub-committees have made detailed reports of their several schools, which reports are hereto annexed, containing such statements and suggestions as in their judgment may be of service or interest to their fellow citizens in understanding the character of the work performed and the manner in which the school fund so generously appropriated by you has been expended.

SCHOOL ORGANIZATION.

HIGH SCHOOL.

Graduates (four years' course). — Marian Elizabeth Blake, Bertha Brackett, George Manley Butler, Clara Estelle Davenport, Annette Elliott, Annie Elizabeth Guy, Nettie Burnham House, Clara May Lang, Annie Helena Rosalie McNally, Annie Blake Raynes, Mabel Louise Wright, Letitia Mae Snow.

Two years' course. — John Michael Corrigan, Sarah Louise Elliott, Isabella King, Charles Davis Smith, Matthew Henry Stack, Jessie Louise Swinton.

Statistics:

Amount of teachers' salaries during the year,	\$3,800 00
“ of janitors' salaries during the year,	150 00
“ expended for fuel during the year,	125 65
“ expended for incidentals,	407 81

BUTLER SCHOOL.

GREW SCHOOL.

Graduates.—William Gray Adams, Florence Elizabeth Barker, Catherine Anna Barry, Frederic Herbert Bass, Frederic William Blaisdale, Charles Franklin Brown, Catherine Elizabeth Butler, Mary Edna Cherrington, Charles Francis Cleary, Orin Francis Corson, George Albert Cutter, John Charles Dolan, John Frank Hayward, Edith Irene Higbee, Florence Helen Holmes, Emma Louise Holway, Margaret Genevieve Kelley, Mary Alson Knight, Kittie Alma Frances McCormick, Frederic Lincoln, Grace Ethel Lingham, Louise Josephine Loftus, William Michael McCormick, John Edward McDonald, Eva Grace Moreland, Ann Stella Margaret Murray, David William Murray, Fannie Lilian Preston, Bertha Jane Rich, Lilian

Alice Richardson, Gertrude Sanborn, Mary Elizabeth Shea, Frederic Carpenter Stone, Anna Gordon Vivian, Ida Hersey Vose, George Henry Walter, George Stanton Webster, George Thomas Williams.

Statistics:

Amount of teachers' salaries,	\$6,193 70
“ janitor's salary,	200 00
“ expended for fuel during the year,	439 77
“ expended for incidentals,	830 46
Whole number of scholars during the year,	533
Average number of scholars during the year,	484
“ attendance during the year,	432
Percentage of attendance during the year,	89.35

SCHOOL APPROPRIATIONS.

At your annual appropriation meeting for 1888, in accordance with our recommendation, you generously voted and appropriated without dissent as follows for the support of our public schools for the then current year; viz.: \$33,000

At subsequent meetings you appropriated for

the same purpose	1,650
For repairing High School	600

\$35,250

And under the supervision of your committee that money has been prudently and cautiously expended for the purposes specified in the appended reports of our sub-committees.

These expenditures appear large but no less amount in our judgment would have been adequate to maintain the high standard then acquired by our schools; so administered in accordance with your manifest desire as to give every boy and girl within the limits of our town an opportunity to become a just, intelligent, industrious and patriotic man or woman of the Republic.

The laws under which we live provide how money thus appropriated shall be raised, viz.: that every person within

our town should be required to contribute by taxation, so as to raise that amount of money, in proportion to his property whether he has children or not.

This requirement had an existence in Massachusetts (long before our present form of government), and like that government was created and has been maintained not for any particular time, class, race or sect, but for all time and all the people of our Commonwealth, whose constitution provides that no part of the money so raised shall be used for sectarian purposes, and that every person shall under all circumstances be protected in the freedom of his religion and religious belief. We have suffered no innovation to be made on these principles or safe-guards.

SCHOOL LEGISLATION.

You are aware that during the last year intemperate words were uttered and an intolerant spirit manifested in connection with discussions on the school question. All this your committee disregarded and performed its duty harmoniously in accordance with its understanding of its legal obligation under the commissions received from you.

In this connection we deem it wise to refer briefly to the school legislation in our state.

In 1642 the General Court of the colony required the municipal authorities to see that every child within their jurisdiction should attend school, and the selectmen of the different towns were required to see to it that that law was strictly enforced, and soon after the passage of the above requirement it was farther provided "that all parents and masters do bring up their children in some honest and lawful calling, labor or employment either in husbandry or some other trade profitable for themselves and the Commonwealth if they will not or cannot train them up in learning to fit them for higher employment."

By subsequent enactment it was provided that schools be maintained at the public expense and school committees were authorized to furnish text books at the public expense to children who were not so provided by their parents.

All the aforesaid provisions have been continued with approval upon our statute books to the present time, and in order to remove any possible distinction or inequality from the public schools of the Commonwealth, in 1884 the legislature passed an act which became operative in August of that year, requiring the school committees of the several cities and towns to purchase at the expense of their respective cities and towns text books and other supplies used in the public schools. Our town has expended for the purposes specified in that act the following amounts, viz. :

In 1884	.	.	.	.	.	.	.	\$1,000 00
" 1885	.	.	.	.	.	.	.	3,335 82
" 1886	.	.	.	.	.	.	.	1,997 28
" 1887	.	.	.	.	.	.	.	1,473 91
" 1888	.	.	.	.	.	.	.	3,083 04
Total	.	.	.	.	.	.	.	\$10,830 05

Why were such laws placed and suffered to remain upon our statutes during all this time? Why did free people voluntarily suffer themselves to be so taxed for more than two centuries?

These interrogatories are answered when we compare the results of education with those of ignorance. Under the aforesaid educational laws our state has reached an exalted position in education, manufactures and commerce, her inhabitants are industrious, thrifty, respectful to each other and patriotic to the state and nation. Recent statistics show that eighty per cent. of the crime committed

in our state is by persons of little education, that a still larger percentage of the criminals have no trade or regular avocation.

SCHOOL BUILDINGS AND GROUNDS.

All the school buildings are in good repair and the health and comfort of the children have been well cared for. We recommend in this connection that the grounds about the grammar school buildings be graded and made better adapted for appropriate sports, gymnastic or other appropriate physical exercises to be moderately and systematically practised under the care and direction of the teachers, so that the school and its surroundings may be made interesting to the scholars and in order that due regard and encouragement may there be given to proper physical as well as mental culture. Such exercises will tend to produce a better quality of school work, greater vigor and force in the intellectual powers as well as a more rugged and vigorous constitution capable of meeting and discharging the arduous duties of life.

We commend the consideration of this subject to you and our successors.

ATTENDANCE.

The schools have been free from any contagious disease or cause of interruption during the school year. The general health of the scholars has been very good. The attendance at all the schools was larger than at any previous year of the town's history, until the commencement of the autumn term when a very material falling off was found in the grammar school buildings occasioned by the opening about that time of Parochial Schools connected with the Church of Precious Blood and attended as we are informed by about five hundred pupils.

TRUANCY.

We found difficulty in enforcing the provisions of ch. 48 of the Public Statutes relating to truant children and absentees from school, for the principal reason that no suitable or convenient place is provided by our county for the discipline and instruction of children convicted for a violation of that statute. We believe and recommend that it is for the public interest that a school be established in our county under sect. 14 of said ch. 48 as recently interpreted by our Supreme Court in the case of *Lynn vs. The Commissioners of Essex County*. Mr. Justice Knowlton who pronounced the opinion of the court in that case, says "that if three or more towns in any county so require, the county commissioners shall establish, at the expense of the county, at convenient places therein, other than the jail or house of correction, truant schools for the confinement, discipline and instruction of minor children convicted under the provisions of sections ten and twelve and shall make suitable provisions for the government and control, and for the appointment of proper teachers and officers thereof, etc. This statute is mandatory; and county commissioners upon a proper requirement under it, should establish a truant school, without reference to their own view as to the expediency of so doing."

It is not unconstitutional as a delegation of legislative power. It is complete in itself. It is as if the legislature had said: "The County Commissioners shall establish and maintain a county truant school in every county where there is a public exigency for one; and the requirement of three or more towns in a county shall be conclusive proof of the existence of such an exigency."

TEMPERANCE TEXT BOOKS.

The legislature of 1885 passed a law requiring special instructions to be given as to the effects of alcoholic drinks, stimulants and narcotics on the human system, as a regular branch of study to all pupils in all schools supported wholly or in part by public money, except special schools maintained solely for instruction in particular branches such as drawing, mechanics, art and like studies. This statute has been faithfully complied with.

It is not our province to discuss the wisdom of that legislation. It is sufficient for us to know that it is a law and must be observed, not evaded or overdone.

MUSIC.

Mr. Henry J. Whittemore and Miss Mary E. Whittemore, both of whom are well known to you, as music teachers, have continued to give instructions to the pupils in music during the year, and we report improved progress in connection with this subject in nearly all the schools.

PARENTS TO VISIT SCHOOLS.

We urge the parents and citizens to visit the schools frequently and thus encourage the teachers and children in their work.

If you find defects or imperfections in any of the schools endeavor to correct the same by reporting such to the teachers or committee.

CONCLUSION.

FELLOW CITIZENS :

Your schools are in charge of an able corps of teachers, selected with care to perform the work assigned to them in accordance with the principles herein stated.

We all agree that the moral, intellectual and physical training of our children is of the greatest importance to society and country. It is your imperative duty to keep the public schools free from race, class, political or social distinction or limitation, and to so govern and maintain them in accordance with the constitution and laws of our Commonwealth that they will continue to resemble as nearly as possible a perfect democracy, in the broadest sense — “Of all, by all, and for all.”

JAMES E. COTTER, Chairman.

At a meeting of the Hyde Park School Board the above report of the Chairman was read and adopted as the report of the full board.

R. M. JOHNSON, Secretary.

SUB-COMMITTEE REPORTS.

HIGH SCHOOL.

No change has occurred in the corps of teachers here the past year. The school is going straight forward in the good work of the preceding year and the citizens of the town may well be congratulated upon the advantages which their young people have here for obtaining a good liberal education or a thorough preparation for the higher institutions of learning.

Every year brings a larger number of pupils to the school, the entering class in September numbering 63. This fact brings to our attention the matter of chief importance regarding the school, viz.: the need of larger and better accommodations. The advanced methods in teaching the sciences require that a room be fitted up for this purpose alone; one that shall be commodious and where the apparatus now in use can be kept free from harm.

A new encyclopædia (Appleton's latest edition) has been placed in the school the past year. Reference books and apparatus are all the time accumulating as the school grows, but the building, while adapted to the needs of an earlier day, now furnishes but cramped accommodations for work.

The school ought soon to have increased room and better facilities for its work, and the town cannot afford to risk the reputation it now has for caring liberally for its schools, by a long delay in the erection of a building that shall be commodious, well lighted and heated, and properly ventilated. The building ought also to be one

that by its dignified, tasteful, and harmonious proportions shall exert a silent educational influence upon the pupils, and be a visible exponent of the high estimation in which the town holds its public schools.

Since September, 1888, there have been 139 pupils in the school. In the preceding year there were 122, and in 1885 there were 103. Another year's increase in the number of pupils will make the demand for a new building absolutely imperative.

B. C. VOSE,
EDMUND DAVIS,
ANDREW WASHBURN,
Local Committee.

BUTLER SCHOOL.

The work in this primary school has been uniformly satisfactory throughout the year. Miss Grace B. Gidney continues in charge of this school and her faithful service as a teacher commands the respect of the parents and the affection of her pupils.

JAMES E. COTTER.

DAMON SCHOOL.

The Damon school has maintained its reputation for good work during the past year.

At the time of our last report the building was fully occupied, and so continued until the close of the last school year; the average number of pupils then being about 330, in charge of eight teachers. When the school opened in September last, this number was reduced to about 115, caused by parents withdrawing their children from the public schools and sending them, as we are informed, to schools of a private character, recently opened

in town. This large reduction in numbers made a reorganization of the schools necessary. Upon careful consideration the sub-committee recommended the retention of Mr. Cross as master with the v., vi. and vii. classes in special charge, with the following assignments of the remaining grades: viii. and ix., Mrs. L. de Senancour; x. and xi., Miss Donovan; and xii., Miss Sears; Miss Bertram to be transferred to fill an existing vacancy at the Grew school, and Misses Brown, Rooney and Mrs. Pettie to be discharged. Their names, however, to be retained upon the list of available teachers. The Board adopted these recommendations in the full and the school is now organized in accordance therewith.

Since September the number of pupils has increased to about 150 and the opening of another room will soon be necessary, should the number continue to increase.

As at present organized, it will be seen that the master has three classes and each teacher, except Miss Sears, has two grades in charge. This of course increases the labor of the teachers but, the number being small, the results obtained are quite satisfactory. The attendance of pupils regularly connected with the school has been good, although there has been much annoyance from a few boys playing truant. One cause of the apparent low per cent. in attendance has been from the fact that some pupils who attend private schools have come in for a short time and, after being enrolled, subsequently return to the private school without giving notice to their teachers, and have thus been marked as absent when attending elsewhere. This we are sorry to say has been practised considerably and does not serve the best interests of the school.

The committee take pleasure in acknowledging the kindness of Mrs. Wolcott, who has again shown her generosity and her interest in this school, by making it another donation of books for its library. We are pleased

to say that these books are much and carefully used by the scholars.

During the summer vacation the buildings and fence were repainted, the old furnaces repaired and the whole premises put in good condition so that little need be expended here during the coming year.

We feel it our duty to again call attention to the necessity of building White's crossing, (so-called), for the use of pupils attending here, who reside between the railroads. The large increase in the number of trains passing over the Old Colony railroad makes it very dangerous for these children to cross the track of this road as many of them do to avoid a very long walk to reach any highway crossing this railroad.

Respectfully submitted,

CHARLES G. CHICK,

JAMES E. COTTER,

Local Committee.

FAIRMOUNT SCHOOL.

As directed by vote of the Committee, the undersigned, the sub-committee in special charge of the Fairmount school, beg leave to submit a short report.

The year has been one of quiet success. The same teachers have worked faithfully at their different posts of duty, from Jan. 1, 1888 to Jan. 1, 1889. At the latter period Miss M. L. Piper resigned her position, to the general regret of committee and parents. Miss E. S. Howes was selected to fill the vacancy. She had passed a particularly fine examination and been placed upon the list of accepted teachers some time before. At the time of her appointment, she was teaching with great success in the Centre Grammar school in Natick, Mass. The fact of

her residence in this town largely decided her to make the change in her field of labor.

The health of Mr. Howard has interfered somewhat with his school duties, but we are glad to report a decided improvement and to express the hope and expectation that with proper care his health now much improved will become firmly established and his services retained for a long time.

The introduction of needle work as a part of the regular school work is on trial for the first time here. Mrs. E. T. Hodgdon instructs in this department in the Fairmount school, with gratifying interest and success. It is proposed to give the girls two years' instruction, during their grammar school course, and that it shall include ordinary sewing, mending, cutting, and, if possible, the use and care of a sewing machine.

We regard each teacher in the school as well qualified, faithful, and fairly successful, and feel that the school deserves confidence and support, and that it is "training the youth of our town in good morals and sound learning" and fitting them for American citizenship.

Respectfully submitted,

A. WASHBURN,
R. M. JOHNSON,

Sub-Committee.

GREENWOOD SCHOOL.

The work of pupils and teachers in this school the past year has progressed under more favorable conditions than that of the year before, when they were obliged to take such quarters as could be had for their accommodation after the destruction of the old building.

Some special attention on the part of the teachers has been necessary in particular cases and has been given in

order to keep all up to grade, and so far as can be judged now the school will show no bad results from the disturbance occasioned by the fire.

The classes have been unusually free from the trouble arising from frequent changes in teachers which has been so common in the past few years. We lost the services of Miss Beede, who was obliged by ill health to give up her class last spring. Her place has been filled however by Miss Josephine E. Thompson, who will, no doubt, prove an able and efficient teacher.

No contagious diseases have appeared among the children and the improved appliances for heating and ventilation in the new building, together with the natural advantages of the location, will go far to preserve the health of the pupils and prevent the spread of contagion among them. The new arrangement for heating by steam works well so far and no dismissals have occurred on account of cold rooms, though there have been a few mornings this season when such would have been the case with the old furnaces.

We have now 364 pupils in this building, and the time is not far distant when the question of increased accommodations for the children of this district will be an important one for the consideration of the citizens, in view of the rapid growth of this part of the town.

The Committee congratulate parents and citizens upon the improved conditions for the health and comfort of their children while under the teachers' care and hope that a vigorous intellectual progress will be equally manifest.

RICHARD M. JOHNSON,
CHARLES G. CHICK,
Local Committee.

GREW SCHOOL.

The Grew school has, as usual, been called upon to part with a number of its teachers during the year. In April, Miss Rogers of the twelfth class; in June, Miss Clark of the ninth class; and in December, Miss Messer of the twelfth class, resigned, and their places were taken, respectively, by Miss Nellie M. Howes of Boston, Miss Margaret E. Bertram of Hyde Park (who had long been a valued teacher in the Damon school), and Miss Bessie C. Sparrell of Hyde Park. Miss Sheldon, teacher of the eighth class, early in the September term, was obliged by sickness to entrust her scholars to substitutes, and her health not becoming sensibly improved, in December she gave up her position, which was taken by Miss Gushee, who was transferred at her request from the sixth class for that purpose, and the vacancy thus made in the sixth class filled by Miss Margaret A. Hanlon of Sharon, where she had been teaching successfully for some years since her graduation from the Normal School at Salem.

In all these cases the classes lost good and faithful teachers; and, while there is every reason to believe that those who have succeeded them will make good their loss, the immediate effect of such changes is always injurious to some extent. Notwithstanding this, however, the present condition of the school is very satisfactory. There is apparent in the rooms an improved state of order and discipline, closer application to legitimate school work and greater advancement therein, and a better percentage of attendance. There has been an entire absence of all diseases of a contagious or general nature, which we consider to be owing, in part, to the frequent use of Hubbard's disinfectant and germicide which we introduced into the school about a year ago, and which has lately been placed in all the public schools in this town.

Furnace heating of public buildings is being generally superseded in cities and large towns by steam heat, which is capable of more even distribution through the buildings and is free from coal gas and other noxious odors. It is now in use in our Greenwood school. If its use there proves satisfactory, as it has thus far, we would suggest the consideration of its substitution for the half-a-dozen furnaces now used in the Grew. Otherwise, some appliance which will enable the teachers to control the heat of the furnaces is desirable, such as the Butz Thermo-Electric Regulator, which is now used on one of the furnaces with very pleasing results.

We commend the scholars for their noticeably good behavior when passing through the public streets on their way to and from school.

EDMUND DAVIS,
JAMES E. COTTER,
Sub-Committee.

EVENING SCHOOLS.

The evening schools opened Dec. 3d last, under the charge of Mr. Rice as Master and Mr. Glover, a student in our high school, as assistant, the number in attendance at the opening being about 40. This number was decreased to about 35, who attend regularly. The work is going forward well and those in attendance seem inclined to make the most of this privilege. It is to be regretted that more of our young men and women do not attend the schools.

The evening drawing school is in charge of Mr. H. W. Killam, whose report is herewith submitted.

CHARLES G. CHICK,
R. M. JOHNSON,
Sub-Committee.

CHAS. G. CHICK, ESQ., SIR:

The sixth term of the Industrial Evening Drawing School opened in the High school building December 3d. About forty young men presented themselves for admission, a majority of them being employed in the various machine shops in town. The school has been in session Monday, Wednesday, and Friday evenings of each week. Friday evening is devoted to elementary work, definitions, plane geometrical figures, geometrical projections, development of surfaces, etc.; Monday evening to details of machinery, including the stddy of screws, toothed gears, and cams. The advanced class has taken up the study of machine design and construction as practised in the best machine shops at the present time. All work is done from blackboard or pencil sketches, no copying being allowed; the object being to educate the pupils to think instead of being mere copyists.

There has been an average of twelve pupils in attendance at each session. Several are doing work that would be creditable to any shop drawing room. Generally the pupils have shown commendable interest, and have made very good progress.

Respectfully submitted,

H. W. KILLAM, Instructor.

INDUSTRIAL SCHOOL.

More and more, each year, educators are demanding that our American public school system shall continue and include some manual training. In the old time country school the farmer's boy had work sufficient in amount and variety to develop both muscle and innate ability. The children of cities and large villages are not so fortunate, and the industrial school in connection with the public school must supply in part, at least, the deficiency. With its usual liberality, this town has made

provision for some manual training, by an appropriation during the year of \$150, which with \$150 unexpended from last year's appropriation, placed in the hands of your committee the sum of \$300.

At the commencement of the summer vacation, a school in carpentry was organized with Mr. J. E. Webb as instructor. Pupils came in in such numbers that three classes of eighteen to twenty each were organized and continued in session two days each week until the commencement of the winter term; the interest and attendance were both good, and the progress made such that even if they do not become carpenters, the pupils will find the hints and instructions given, and the knowledge in the use and care of tools acquired, of great and permanent value.

A sewing school for girls was also opened under Mrs. A. Boardman, assisted by Miss M. E. Boardman, and valuable instruction in needle work was given to one hundred girls, during the summer vacation.

In the two upper classes of the grammar schools, sewing has been made a branch of the regular school work, but it has seemed impracticable to introduce it into the lower classes, and your committee therefore urge that the Industrial schools be continued in session during the summer vacations hereafter, to give the younger as well as the older girls opportunity for instruction in sewing and the boys, not otherwise occupied, a chance to handle tools and get some practical ideas of their care and use.

Respectfully submitted,

ANDREW WASHBURN,
B. C. VOSE,

Committee.

REPORT OF SCHOOLS.

HIGH SCHOOL.

Principal: JOHN F. ELLIOT.

Sub-Master: E. RICE. Assistants: Miss S. L. MINER, Miss F. G. MERRICK.
